HR Manager
Xiteb (Pvt) Ltd,
Kalubowila,
Dehiwala

Dear Sir/Madam,

Application for the Position of UI/UX Designer

I am writing to apply for the UI/UX Designer position at Xiteb. I am currently pursuing a Higher Diploma in Information Technology at **SLIIT City University** and have a strong interest in UI/UX design and front-end development.

Through my academic studies and personal learning, I have gained experience in designing user-friendly interfaces using Figma and developing responsive web applications using HTML, CSS, JavaScript, React.js, and Bootstrap. I enjoy creating designs that are both visually appealing and easy for users to navigate.

As part of my academic projects, I have worked on a Tuition Institute Management System, where I was responsible for developing the Exams and Results Management Module. This project helped me improve my skills in user interface design, database management, and understanding user requirements. I have also completed several other web development and UI/UX-related projects, which strengthened my problem-solving, teamwork, and design skills.

I am eager to apply my skills in a professional environment, learn from experienced professionals, and contribute positively to your team. My passion for UI/UX design, technical background, and strong willingness to learn make me a suitable candidate for this position.

I have attached my CV for your consideration and would appreciate the opportunity to discuss my qualifications further. Thank you for your time and consideration, and I look forward to hearing from you.

Yours faithfully,
A S J De Zoysa Rajapaksha
